FULL BODY SOAKING. COMFORTABLY. INDEPENDENTLY. SAFELY.

ENJOY COMFORTABLE, ACCESSIBLE BATHING
American Standard walk-in baths make it safe and easy to enter and exit the tub and experience the benefits of bathing. Every American Standard walk-in bath includes a large walk-in tub door, built-in contoured seat and deep soaking dimension for a safe and comfortable full body bathing experience.

TURN BATHS INTO SPA TREATMENTS

Experience the pleasures of therapeutic massages with our Whirlpool, Air Spa and Combo massage systems.

DESIGNED FOR OPTIMAL HEALTH BENEFITS

A deep warm soak or therapeutic massage is great for arthritis, obesity, rheumatism, back pain, sore knees and other common ailments. Experience the healing benefits of water therapy safely and in comfort.

FULL BODY SOAKING

THE ULTIMATE BATHING EXPERIENCE

WHIRLPOOL SYSTEM

The Whirlpool system features advanced back and leg therapy and includes our automatic tub cleaning system which breaks down all bacteria in the water, whirlpool jets and piping to eliminate the maintenance.

AIR SPA SYSTEM

The Air Spa system creates thousands of air bubbles in the bath for a soothing massage of water, heat and air resulting in a relaxing champagne massage.

COMBO MASSAGE

The Combo includes both the Whirlpool and Air Spa system that can be operated independently or at the same time. These systems are designed to offer the most comprehensive water therapy available.

ADVANCED BACK AND LEG MASSAGE

Our six lower back massage jets provides a luxurious massage for optimal muscle health and relaxation. The legs massage operates with the tub half-full for quick, energizing leg massages that improve circulation and relax tired muscles. Both massage systems come standard with the Whirlpool and Combo systems.

QUICK DRAIN™

The Quick Drain™ water removal system drains your tub quickly which means you don't wait to exit after finishing your bath. This system ties directly into the standard drain system and requires no additional plumbing outside of the tub.
